Width 65 Depth 76

Description:

Currently Under Construction Airport Hangar at the desirable Coeur d'Alene Airport. This hangar is 65x76 and is big enough to fit several planes if needed. If you come early enough during the building process, you may be able to design some interior features and amenities. The current layout offers an office, bathroom, waiting area and much more! The Doors on this Hangar are 60x20 feet giving you plenty of clearance for a bigger jet if needed and in addition there is also a 12x14 ft RV door in the front. Radiant flooring throughout, spray foamed insulation, this Hangar is LOADED! Direct Taxi is only minutes away by plane.
