**Description:**

This insulated hangar with an upgraded bathroom and shower inside is perfectly located off of taxiway Alpha. It is truly the best view at the airport to enjoy open spaces and watching take offs and landings. The rent includes hoa, land lease, and power fees. Insulation is a must in our desert heat and the private bathroom refrigerator makes it hard to leave this great space and go home.

The lease is month-to-month through October 2023.
