Hangar for Rent, Marco Island new hangar space

\$0.00

kc8sid@gmail.com

2005 Mainsail Dr,

Width 56 Depth 70 Height 17.5

Description:

Hangar A1 is one of eleven new hangars recently built by Mirash Vataj at the prestigious Marco Island Executive Airport KMKY with 5000ft x 100ft runway and first class FBO. Note that it has a Naples address due to being located just across the bridge from the island. Maximum 10 minute drive to anywhere on Marco Island. Due to limited land, its expected there will not be any more hangars built in the near future. The City has over a 10 year waiting for a municipal hangar and had only sixteen total. This gated access hangar is a 56ft x 70ft x 17.5ft hangar and has two small access doors, one with keyless entry. There are private restrooms nearby for the hangar group. It includes use of an electric Best-Tug B12 to easily put your plane in and out that also has an air compressor, jump start and GPU power, C-clamp for wheel pants and chock with strap for non-panted wheels. There are two lounge chairs and a large fan if you need a relaxing wait however a short walk to the recently completed beautiful state of the art terminal building has all the additional comforts you may require.

Daily, weekly and monthly rates available. The rate will be determined by the size of your plane for the length of time needed. Additionally, we have a VRBO available here for you and or the crew...
