**Description:**

Long-term storage space is available in a private 100' x 100' hangar with a remote control main bi-fold door located on the North GA ramp next to Million Air at the Tucson International Airport. Access will be provided to a bathroom and comfortable ready room. Tenant will move their own aircraft using their own tug. Turbine aircraft only--up to a Phenom 300 or CJ3/CJ4 maximum size limit. Annual lease is currently available at a competitive monthly rate. Internal car parking for one car is available for an additional fee. This is a community space with low packing density (limited to a max of 4 aircraft). Occupancy requires airport security training to get a security badge. CAA fuel price and ramp service is available from Tucson Jet. This space is available for parking only--no maintenance work. Feel free to contact me anytime for price and more details.
