Width 55'0 Approx   Depth 42'0 Approx   Height 22'0 Approx

Description:

Only one person will take ownership of this Apex / Legacy Hangar Property.

Situated in the premier location adjacent to Charlie 2 at Centennial Airport, our hangar has territorial views of the Rocky Mountains and all runways in and out of Centennial.

People travel from all over the country to see this hangar and we have always welcomed them. We are told this is the nicest hangar at KAPA and “the hangar has its’ own unique ecosystem”. This could be yours.

This Apex property was carefully crafted for high-end entertainment, family, friends, clients and aviation enthusiasts. This is the finest place to get away, enjoy a peaceful environment in a high security airport, both in the heart of the city and Denver’s business community.

Includes pilot rest area, two pilot lounges, two bathrooms with showers, large living room, large kitchen with high-volume cabinets and high-end appliances.

The hangar is suitable for a Cessna Mustang, SF-50, M-500, Honda Jet, etc.

Please contact me directly while I wait for broker to list property. I will consider non-contingent bids. Please, serious inquiries only – The qualified buyer knows what is offered here.

Please call with questions. I am able to show the hangar April 14<sup>th</sup> & 15<sup>th</sup> to non-contingent buyers.

Additional photos upon request.

Kindest regards,

Greg
