Width 42 Depth 37

Description:

Executive T hangar, light twin model. Full square plot for expansion.

Second hangar down from 31 numbers, so doesn't get much closer!

Concrete slab, PG&E electricity, County maintained outside light.

On the edge of field, so no abutting hangars in back - that means the back corners are available for expanding hangar to a full square format, or just adding offices etc. Great views of the wetlands.
