#### Description:

Climate Controlled and insulated with A/C and Heat. Fits up to five smaller piston airplanes or one jet, turboprop, or combination of turbine and piston planes. This specific hangar has 3,180 sq ft of space.

Modern Hangars with Sturdy Steel Construction. Conroe-North Houston Regional Airport is your aviation gateway to The Woodlands, Spring, and the Greater Houston area. The airport serves business and recreational travelers with two runways, two FBOs, multiple instrument approaches, and an on-site US Customs Station for international flights.

Our private aircraft hangars are located at the CXO Airport and have solid steel construction, quality lighting, and 24-hour climate control, keeping your investment safe and secure.

With over 10,000 square feet of combined hangar space available throughout the Conroe airport, we can accommodate piston, turboprop, or jet aircraft including many models of King Air, Citation, or Learjet Aircraft.

The motorized, bi-fold hangar doors open and close with the touch of a button. There is quick and easy access with a coded entry automatic gate. This hangar features WiFi and a community restroom on the side for your convenience.
