Width 41ft Depth 35ft Height 12ft

**Description:**

This is an "end" hangar with extra space in the corner. Bathrooms and Water are just around the corner of the building. Very convenient. Looking for a 6-12 month leasee. Available March 1, 2024.

I had a Piper Turbo Lance II in the hangar for some years with a 9ft tall tail. It still had a couple feet of additional clearance, so the door is fairly tall.
