#### Description:

This fantastic full-sized hangar is located on the preferable north side of the Glendale Municipal Airport (KGEU). Dimensions are 41' deep x 43' wide x 15' high, with a Schweiss bi-folding door that works great, opening to 13'. The unit is located on the end of the row, meaning you can pull your plane out without worrying about other planes wanting to pass. And because it is on the end, it has a side pedestrian door and is convenient to the parking lot when guests visit.

In one corner there is a kitchenette next to a laundry room - above that is a bath (with shower)/ office. The epoxy floors are in serviceable condition. LED lighting. The hangar will be available in about a month, at the end of April. For more information and photos, contact owner Judd at (323) 252-6767
