Width 60 feet Depth 60 feet Height 18 feet at eaves

**Description:**

Already rented for the winter!! We will be doing a partial rental (no more than 3 airplanes in the hangar, including our Cessna 210) in the spring of 2025. If you are interested, please text or email to be on the waiting list. We will be out of phone/computer service during the latter part of November, but will get back to you in December. We do not plan to sell the hangar at this time, just rent part of it. We are having too much fun with it ourselves.

Brand new 60 x 60 x18 hangar! Higher Power south facing 55x16 door, for your plane plus 12x14 roll up door on east side for your boat or RV. Keep all your toys indoors and warm this winter!

Windows on east and north sides. You can watch the runway to the north.

No more coming into a cold hangar to work on your plane - a 300,000 BTU gas heater plus thick insulation - R21 walls, R38 ceiling, keep the electronics and you warm and happy..

LED lights, ceiling fans and a bathroom. 200 amp service with one 50 amp welder circuit, wired for washer / dryer.

TEXT me 530-219-9337 if you are interested.
