Hangar for Rent, Corona Hangar and a half

\$975.00

davidcoronahangar@gmail.com

1989 Aviation ,

Width 44 Depth 50 Height 13

Description:

This is a great end unit that features an extra "half hangar". This building is a "nested t-hangar" and you end up with a half hangar at opposite corners of the building. The first picture shows the layout of the hangar. It is actually the opposite corner, but you get the idea. This hangar had been painted white which makes it really clean and bright. Don't miss this opportunity to get some extra working area in your hangar. See you soon!
