Hangar for Sale, T-Hangar with a loft

\$350000.00

Contact : Pangaea REH

schnyederd@gmail.com

Width 42.5 feet Depth 31 Height 12 feet, 8 inches at the door

Description:

I sold the plane so I don't need the hangar. Unlike other airports, the purchase of this hangar includes the land it sits on. This is on the west side of the airport, 2nd row in from Redwood Road. It has electricity for tools and lighting. The loft is above the main level and serves as a great space for storage to help keep the plane space below the plane space. Dimensions are 31 feet deep by 42.5 feet width for the main level. Dimension for the loft is 21 feet by 15.5 feet. Door height is 12 feet, 8 inches, but the supporting beam for the loft is at 10.5 feet. See picture for other specific dimensions. I do not need to sell so please don't waste my time, or yours. Serious inquiries only. 801-742-1634.
