Hangar type (Model)	

Description:

Butler Building fully insulated with 200 amp electric service. Has stack door with 85' clear opening. Great for multiple singles, helicopters and some twins. Restroom 30 feet away in front building. This hangar is on private property adjacent to the Red Bluff Municipal airport with direct taxi way access. Other side of hangar is direct access to city street via two overhead doors and two walk doors. Owner would be willing to add office space/restrooms for the right long-term lease.
