Width 60' Depth 48' Height 12'

Description:

For Sale - 60x48 hangar with a 52x12 hydraulic door. This hangar was built in 2015. It has a nice concrete apron, interior lighting and 110v receptacles throughout. The southern exposure allows for expedited snow melt and excellent solar gain through the translucent upper panels in the winter months. The airport features a 60x4500 paved runway with pilot controlled lighting, automated weather (122.7 4 clicks) and very competitive fuel prices.
