Hangar for Sale, 37,288 SF Manufacturing Hangar Facility  
at Olympia Regional Airport

[katrin.gist@cbre.com](mailto:katrin.gist@cbre.com)

\$2000000.00

---

**Description:**

CBRE is pleased to offer this unique opportunity to secure a 37,288 SF aircraft hangar facility at the Olympia Regional Airport. The hangar has been used as an aircraft maintenance facility for many years, currently produces FAA-PMA parts, and is an FAA and EASA 145 Approved Repair Station. The facility is well-appointed for a similar operation to base in the region. The Puget Sound hangar market has become increasingly tight in recent years, and this facility is an ideal opportunity for a foreign MRO or aircraft manufacturer to have a U.S. location. The owner has an option on an approximately 5-acre parcel adjacent to the hangar facility.
