4802 Domain Dr,

Width 45' Depth 32' Height 14'

Description:

Hangar for a single engine aircraft features a 40ft wide by 12-13 ft high Schweiss strapped bifold door. Building is 45' x32'. Built in 2005. (Walters) All steel inside and out, well insulated. Large overhead heater just serviced, 100 amp electric service, optional generator service receptacle outside in case a generator is needed to open the large door or if you want to stay clear of monthly utility bills for meter rental. Large AC unit in back wall. Building is tied into city water and sewer (currently disconnected). Text or call 6123666728
