Width 39 feet Depth 32 feet Height 12 feet

Description:

Airplane Hangar at Bellingham International Airport. The unit is located in the "Cirrus Hangar Building" and is part of the Strato Hangar Condominium Association. The hangar is a "tee style hangar" which will accommodate most single and twin engine general aviation planes. Hangar maximum width is 39 feet with sliding door clearance of 12 feet. Condo fees include payment for ground lease and upkeep of exterior of building. There is a limited supply of hangars and demand is strong.
