Width 60' Depth 60' Height 24', door height 12'

Description:

This is a U S Buildings type S hangar in perfect condition. It has over engineered Front and Rear walls with windows front and rear. The opening is over 40' with 8 accordian doors. It has been wired with floodlights on the inside walls. Price includes the major steel beam resting on two columns which create the large opening and a man door on the front and rear. The price represents a take down condition so the building can be erected wherever needed. A new building of this type would be \$60,000.00.
